SIGUCCS

SIGUCCS

What in the world is that and why should I become a member?

Association of Computing Machinery

- ACM is an educational and scientific society uniting the world's computing educators, researchers and professionals to inspire dialogue, share resources and address the field's challenges.
- ACM strengthens the profession's collective voice through strong leadership, promotion of the highest standards, and recognition of technical excellence.
- ACM supports the professional growth of its members by providing opportunities for life-long learning, career development, and professional networking.
